

Bridging Experience and Innovation

This programme serves as a premier platform for experienced surgeons to synergize and fine-tune their advanced skills. By connecting established surgeons with dedicated teachers, we create a dynamic environment for growth. The event brings together the brightest minds in the medical field to exchange cutting-edge knowledge. Participants will explore revolutionary surgical techniques that are shaping the future of medicine.

This 4-day academic celebration represents a monumental gathering for the medical community. We are bringing together 400 to 600 ambitious young surgeons and postgraduates eager to learn. They will be joined by over 500 highly accomplished surgeons from across South India and Tamil Nadu. To enrich this experience, prestigious national faculty from all over India will share their invaluable expertise.

We cordially invite corporate and academic partners to join us for this prestigious surgeons' conference. Your collaboration will play a vital role in making this event a landmark success. We look forward to building a wonderful, long-lasting relationship with your organization. Together, we can drive innovation, support education, and elevate the standards of surgical care across the nation.
